

Geometry – Standard G.CO.4 – Introduction and Exploration

First, remember those five terms that we explore in G.CO.1? Just to brush up, why don't you write definitions for each of them:

Angle:

Circle:

Perpendicular Lines:

Parallel Lines:

Line Segments:

Now, using your web resources, write three different definitions to each of the following words.
(Provide URLs as references to where you got the information.)

Rotation:
